Price Increase

At Hilton, our patients interests are at the forefront of everything thing we do.

Whilst we continue to provide a high standard of service unfortunately, with the changing financial climate and the cost for materials rising, we have made the difficult decision to increase some of our prices.

We've tried hard to keep costs to our patients as low as possible, Please note, there have been no changes to our prices since 2017 unfortunately, the time has come.

Please see the new pricing below:
